The Blott Works Crane Lamp is an innovative desk or table lamp that pays homage to two distinct characters of the skies sharing a common name: towering load-lifting structures that help us build our towns and cities, and the elegant wading bird, an icon of prehistory that still walks the Earth.

Steeped in industrial styling, the lamp is made from hard-anodised aluminum, with a hand-carved oak lamp shade and a rough-cast concrete base. The semi-circular girder features an inner section that extends, and the 'beak' lamp shade rotates up and down to useful and amusing effect.
